NOT YOUR USUAL LOBBY BAR

As you step into this vibrant space, you might wonder whether you have entered a lobby bar or the living room of the city's most creative minds.

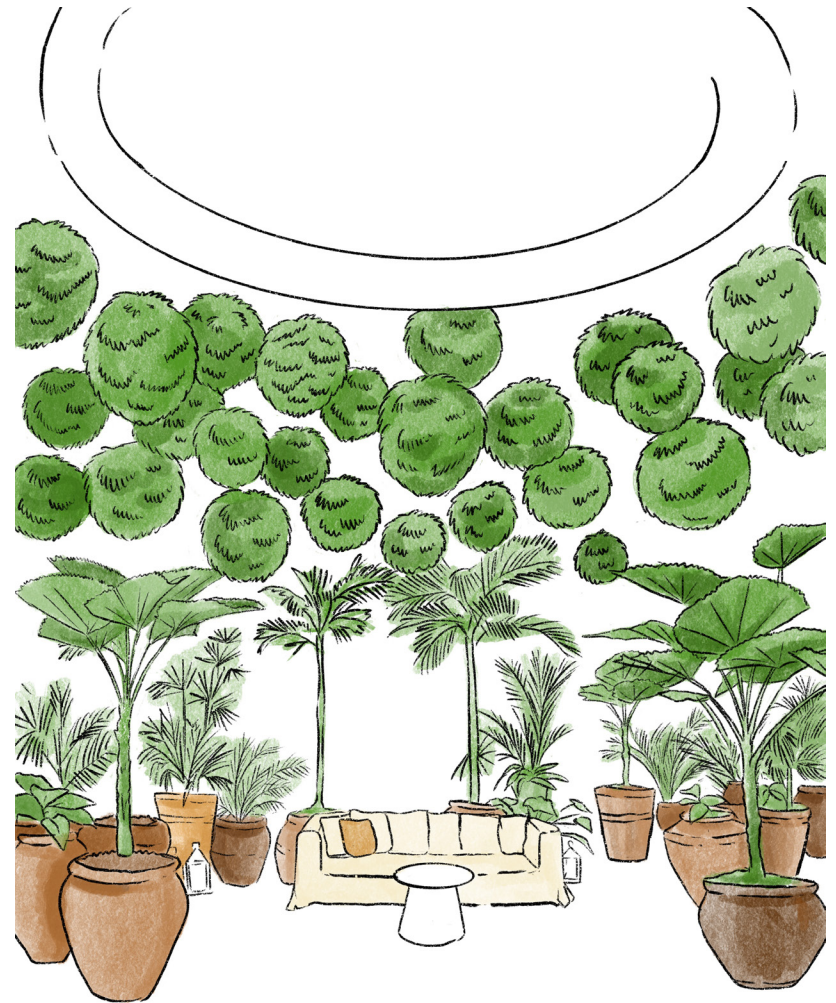

The answer is, well... both.

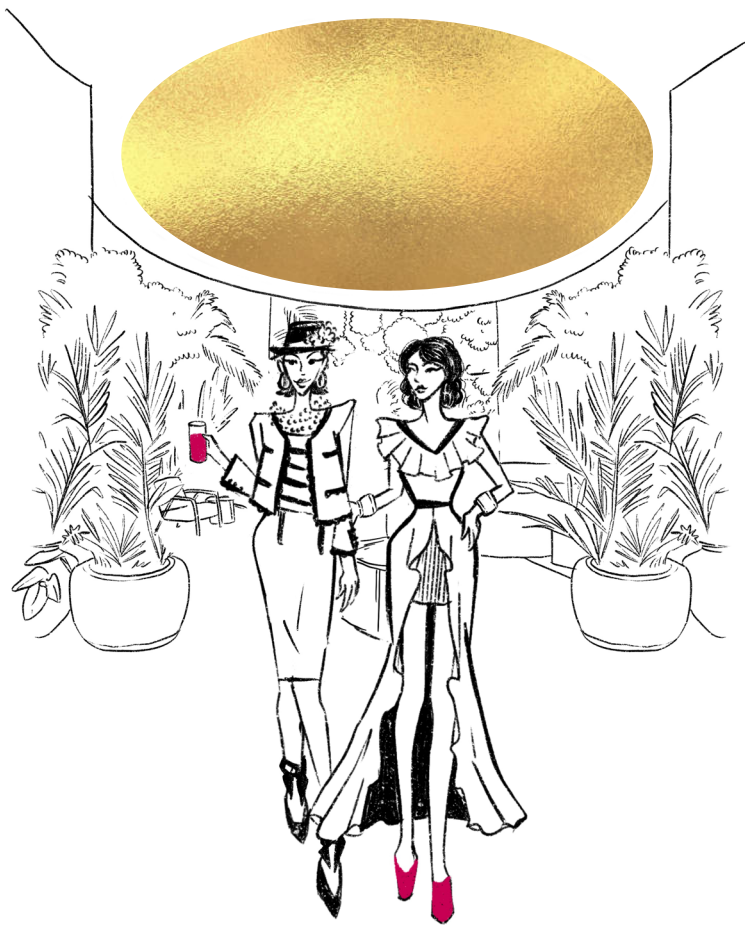

Nestled within a lush indoor garden anchored against an iconic pink bar, the Lobby Bar at The Singapore EDITION has become a familiar base for those who shape culture, fashion insiders, tastemakers, and curious minds passing through.

There is nothing ordinary about this room, yet it remains welcoming and lived in. Equal parts fascinating and familiar, it brings together timeless elegance with quiet surprise. By day, it invites pause and reflection. As night falls, the energy shifts. The light deepens. The pool table begins its nightly ritual. The sharp crack of cue balls and the clink of glassware mark the start of something more extravagant.

The menu you are holding is inspired by the personalities that bring this space to life. From the impeccably dressed enjoying martinis at the bar, always composed, always at ease, to the designer whose drink mirrors the quiet confidence of their work, each cocktail captures a mood, a presence, a fleeting moment worth remembering.

Welcome to your Lobby Bar. A place where the drink in your hand is as thoughtfully made as the company you share it with.

JASMINE PALOMA *

26

Volcan Blanco Tequila, Jasmine,
Grapefruit Soda, Lime

As you enter the lobby, the scent is captivating, like that pink, tall drink that seems to be in everyone's hand. A gentle Paloma, infused with jasmine, that has got the town talking.

Is it really the best? Probably. But it is definitely the most popular. And sometimes, that is all that matters.
