EDITION[®]

MENU OF SERVICES

WELLNESS

Within a world defined by constant movement, stillness becomes the rarest luxury. Conceived as a place of being, the spa is a sensory sanctuary designed to quiet the rhythm of modern life and guide guests back to presence through the subtle awakening of the senses.

Here, light softens, sound quiets, and time begins to slow. Every detail is intentionally composed to create a sensory counterpoint to the energy beyond our doors in an immersive experience where scent, touch, taste, and atmosphere work together to restore balance and calm.

At the heart of the experience is a signature black tea fragrance created exclusively for EDITION by Le Labo. Warm, grounding, and quietly invigorating, its subtle presence flows throughout the spa, becoming a sensory thread woven into each ritual and moment of pause.

Treatments begin and end with intentional rituals designed to transition the body into stillness and gently guide it back outward. Slow, rhythmic touch, grounding warmth, calming sound, and layered sensory elements invite deeper awareness and reconnection with self.

Beyond the treatment rooms, the experience continues within the tea lounge, where guests are invited to create their own tea blends from a curated apothecary of botanicals, herbs, and black teas. More than refreshment, it is a mindful ritual – an invitation to slow down, engage the senses, and linger in the moment.

The Spa at The Tampa EDITION is not simply a destination for relaxation, but a sanctuary for recalibration. A place where the senses soften, the mind follows, and wellness becomes less about escape and more about presence.

Awaken the senses. Rediscover the art of being.
