MARKET AT EDITION

A conversation on seasonal ingredients, global influences, and the culinary philosophy behind Market at EDITION.

Miami is known for its diverse culinary influences. How does the city’s vibrant food culture inspire your menus and approach to cooking?

Miami is one of the most culturally diverse food cities in the world, and that diversity naturally inspires our menus. The city’s Latin American, Caribbean, Mediterranean, and international influences encourage us to explore vibrant flavors while remaining true to Jean-Georges’ signature style. Combined with access to outstanding local seafood, tropical fruits, and seasonal produce, Miami provides endless inspiration for creating dishes that feel both globally influenced and uniquely local.

For guests who may be discovering Market at EDITION for the first time through Miami Spice, how would you describe the restaurant’s culinary philosophy and dining experience?

Market at EDITION is a reflection of Chef Jean-Georges’ philosophy of fresh, market-driven cooking with global influences. Every dish begins with exceptional seasonal ingredients, many sourced from local purveyors, and is elevated through refined yet approachable techniques that allow natural flavors to shine. The dining experience is designed to feel welcoming, vibrant, and sophisticated — where guests can enjoy innovative cuisine in a relaxed atmosphere that embodies the energy and elegance of Miami Beach.

What inspired this year’s Miami Spice menu, and how does it showcase the flavors and ingredients that define Market at EDITION?

This year’s Miami Spice menu was inspired by the abundance of seasonal summer ingredients and the vibrant flavors that define both Miami and Jean-Georges’ culinary style. The menu highlights fresh produce, bright citrus, tropical accents, and thoughtfully balanced global seasonings. It offers guests a true introduction to Market’s approach to cooking—ingredient-focused dishes that are both refined and full of flavor.

Can you share any seasonal or locally sourced ingredients featured on the Miami Spice menu and why they were selected for this time of year?

Summer offers an incredible variety of ingredients that pair perfectly with our style of cooking. Depending on availability, guests may enjoy locally sourced seafood, heirloom tomatoes, tropical fruits, herbs, citrus, and seasonal vegetables from regional farms. These ingredients capture the freshness and vibrancy of the season while supporting local producers and allowing us to create dishes that are naturally flavorful and beautifully balanced.

What dish on the current menu best represents your personal cooking style, and what story does it tell about Market at EDITION’s cuisine?

One dish that truly represents our philosophy is a simply prepared fresh seafood dish that allows the quality of the ingredient to remain the focal point while being enhanced with bright citrus, aromatic herbs, and subtle global seasonings. The tuna tartare best represents my cooking style because it’s layered with bold, vibrant flavors while remaining balanced and refined. Although the preparation appears simple, every ingredient plays a purposeful role, creating a dish with remarkable depth and complexity. It reflects my approach to cooking—letting exceptional ingredients shine while enhancing them with thoughtful seasoning and technique.

Looking beyond Miami Spice, what culinary trends, menu innovations, or guest experiences are you most excited to bring to Market at EDITION in the coming months?

We’re always evolving our menus to reflect the changing seasons while staying true to our market-driven philosophy. Guests can look forward to new seasonal ingredients, creative flavor combinations, and continued collaborations with local farms and producers. Beyond the menu itself, we’re focused on creating memorable dining experiences that combine exceptional hospitality, innovative cuisine, and the vibrant atmosphere that makes Market at EDITION a destination for both locals and visitors.
